

To Whom It May Concern,

In this era of so much ugliness and anger we cannot allow an encouraging radio station like K-Love to not be able to be transmitted to many places in this country. I listen to K-Love every day and cannot imagine going through life without the encouraging music and words. I know many in the community who feel the same as I. I am a parent and know that there are too many enticements out there that can and do pull young children the wrong ways. This radio station is essential to the well being of Christians and those who we pray will become Christians through the help of K-Love.

Thank you.

Diane Bestercey
